Date: December 3, 2013

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

Agenda Item No. 8(0)(2)

From: Carlos A. Gimenez
Mayor

Subject: Resolution recommending award of non-exclusive Professional Services Agreement Number 13PBI001: Project Number E12-WASD-04 to Parsons Brinckerhoff, Inc. in the amount not to exceed \$5,500,000.00, to provide engineering services for contract administration and construction management for the design, permitting and construction of a 60-inch sewer force main to replace the existing 54-inch sewer force main from Fisher Island, under the Norris Cut Channel to the Central District Wastewater Treatment Plant located on Virginia Key

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution awarding non-exclusive Professional Services Agreement Number 13PBI001: Project Number E12-WASD-04 to Parsons Brinckerhoff, Inc. (formerly known as PB Americas, Inc.). The total compensation amount is \$5,500,000.00 for a term of five years.

Parsons Brinckerhoff, Inc. will provide engineering services for contract administration and construction management for the design, permitting and construction of a 60-inch sewer force main to replace the existing 54-inch sewer force main from Fisher Island, under the Norris Cut Channel to the Central District Wastewater Treatment Plant located on Virginia Key.

Scope

The engineering services related to the construction of the 60-inch sewer force main are of county-wide significance. The 60-inch sewer force main will be located in Districts 5 and 7, Commissioners Barreiro and Suarez, respectively.

Fiscal Impact/Funding Source

This project has a fiscal impact of \$5,500,000.00. The funding sources will be a combination of Wastewater Connection Charges, Wastewater Renewal and Replacement Fund, and WASD Revenue Bonds Sold. The Capital Project No. is 9650241, it is included in the County's Adopted Multi-Year Capital Improvement Plan for Fiscal Years 2013-18.

Track Record/Monitor

WASD's Deputy Director of Regulatory Compliance and Capital Improvements, Douglas L. Yoder, will monitor the professional service agreement.

Background

On July 6, 2010, Parsons Brinckerhoff, Inc. was awarded a separate contract to provide similar engineering services for construction administration and construction management for the replacement of a 20-inch water main from Port Island, under the Fisherman's Channel to Fisher

Island, and the replacement of a 54-inch sewer force main from south Miami Beach, under the Government Cut Channel to Fisher Island. To date, the replacement of the 20-inch water main has been successfully completed and the replacement of the 54-inch sewer force main is near completion.

If this award recommendation is approved by the Board, Parsons Brinkerhoff, Inc. will also provide engineering services for contract administration and construction management for the design, permitting and construction of a 60-inch sewer force main to replace the existing 54-inch sewer force main from Fisher Island, under the Norris Cut Channel to the County's Central District Wastewater Treatment Plant.

On December 11, 2012, a Notice to Professional Consultants was issued under full and open competition for the scope of work in the attached professional service agreement. The solicitation document included language specifying that the consultant team approved by the Board for award of this capital project would be precluded from the award of the associated design-build contract. On January 11, 2013, the Clerk of the Board received two proposals. In accordance with Section 3.2 of the Notice to Professional Consultants Selection Process, the County was allowed to extend the deadline submittal date to January 28, 2013 to determine if there was interest from other potential respondents to provide the engineering services described for this project. No further interest was expressed or additional proposals received.

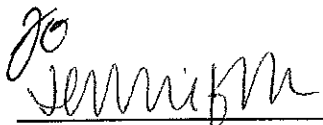

At the First Tier meeting held on February 12, 2013, the Competitive Selection Committee evaluated and voted to recommend the number one ranked firm, Parsons Brinckerhoff, Inc., to the County Mayor for negotiations of this agreement (see attached). The Negotiation Committee was approved on February 21, 2013 and several months later on May 22, the Negotiation Committee met with Parsons Brinckerhoff, Inc. and concluded its negotiations. It is recommended that the Board award this contract to Parsons Brinckerhoff, Inc. Board approval of this contract is contingent on and does not create any contractual relationship with Parsons Brinckerhoff, Inc. unless and until this Board awards a Design-Build Contract for the design, permitting and construction of a 60-inch sewer force main to replace the existing 54-inch force main from Fisher Island, under the Norris Cut Channel, to the Central District Wastewater Treatment Plant located on Virginia Key.

Due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine responsibility, including verifying corporate status, and performance and compliance data. The lists that were reviewed include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to this Consultant's responsibility. This information is being provided pursuant to Resolution R-187-12.

The Internal Services Department Capital Improvements Information System database contains 78 evaluations for Parsons Brinckerhoff, Inc. with an average overall 3.7 rating out of a possible 4 points. According to the Firm History Report provided by the Small Business Development Section, Parsons Brinckerhoff, Inc. has been awarded two (2) contracts with Miami-Dade County during the last 5 years making for a total award amount of \$6,712,160.00.

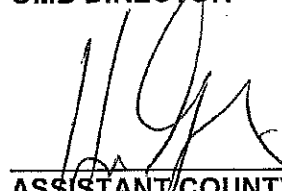

A 27% Community Business Enterprise goal was established for this project.

 - I. Use computer and networking hardware, software and firmware standards as approved by the Information Technology (IT) Division of WASD. IT staff must be involved in the design phase of an application and in developing the testing, training and acceptance criteria of the application before it is placed into production. All applications and/or systems to be transferred to the COUNTY must have adequate end user and systems support documentation and as part of the design process for a project, any system needs should be identified and will require the approval of WASD IT. All electronic data performed or produced in the performance of this Agreement shall be transferred in an approved media and format by WASD IT.

WASD may request non-disclosure agreements to be signed regarding infrastructure information and shall hold the ENGINEER responsible for the security of this data.
 - M. All ENGINEER staff wishing to gain access to work via the COUNTY network will require a network identification (ID) and password issued within the guidelines set forth for security. This ID will be terminated after use on the project, or if not signed-on to the network after ten (10) days.
 - N. The ENGINEER will adhere to the Public Involvement Plan in accordance with Miami-Dade County's Resolution R-273-05, as amended.

The ENGINEER shall not be entitled to an increase in the Agreement sum, payment or compensation of any kind from the COUNTY beyond that set forth in this Agreement or direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to, costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever; provided, however, that this provision shall not preclude recovery or damages by the ENGINEER for hindrances or delays due solely to fraud, bad faith or active interference on the part of the COUNTY or its agents. Otherwise, the ENGINEER shall be entitled only to extensions of time as the sole and exclusive remedy for such resulting delay, in accordance with and to the extent specifically provided below.

The time to perform this Agreement shall be extended only if the ENGINEER is delayed in performing any obligation under this Agreement due to a force majeure or inevitable accident or occurrence. The ENGINEER shall request in writing a time extension from the Director within ten (10) days of said force majeure or inevitable accident or occurrence. Failure to make such written

request within the specified time shall be a ban on the ability of the ENGINEER to bring any civil action for either compensable or non-compensable time extension.

7. FORCE MAJEURE: Shall mean an act of God which includes but is not limited to: sudden, unexpected or extraordinary forces of nature such as hurricanes, floods, washouts, storms, fires, earthquakes, landslides, epidemics, explosions or other forces of nature. 8. COMPENSATION FOR SERVICES: The COUNTY agrees to pay and the ENGINEER agrees to accept a fee representing full compensation for the performance of the services specified herein. The ENGINEER shall submit monthly invoices for all work in progress using a format and procedure provided by WASD and in accordance with the Prompt Payment Ordinance No. 94-40. Invoices shall be submitted within one hundred twenty (120) days of the performance of the service being billed. The COUNTY shall not pay invoices that are not properly submitted within that period. Additionally, the COUNTY may withhold payment of any invoices from the ENGINEER if the COUNTY determines that the ENGINEER submitted and received payment of an inaccurate invoice, without limitation to any other legal or equitable remedies. Fees and other compensation will be computed in accordance with one or a combination of the methods outlined below as specified in a written task authorization approved by the Director or the Director's designee:

A. Fee as a Multiple of Direct Salary Cost and Fixed Hourly Rate:

- 1) The fee for professional services rendered by the ENGINEER's employees, principals excluded, shall be computed based on the direct salary cost, as reported to the Internal Revenue Service, excluding bonuses or awards if applicable, for the time said employee engaged directly in the work, times a negotiated multiplier of 2.85 for Office Employees, 2.4 for the ENGINEER's employees working in COUNTY offices and 2.1 for all Field Employees. Office Personnel shall mean personnel that are located in the home offices of the ENGINEER and

or Subconsultant(s). Field Personnel shall mean personnel that is performing duties in the field, or outside of the home offices of the ENGINEER and or Subconsultant(s), and at offices of the COUNTY for more than thirty (30) days, but not considered permanent. Also, the home office still provides office space. This fee shall constitute full compensation to the ENGINEER for costs incurred in the performance of the work such as salaries, overhead, fringe benefits, operating margin and all other costs not covered by reimbursable expenses. In no case shall the maximum rate of compensation, including multipliers of direct salary, exceed two hundred fifty dollars (\$250.00) per hour for the ENGINEER and Subconsultant(s). Furthermore, the maximum hourly rates (before the multipliers) are capped and set not to exceed as indicated in the attached Exhibit "H".

The COUNTY has the right to audit this Agreement to verify these multipliers. No escalation will be permitted.

- 2) For employees that are on an hourly basis and are required to be paid overtime, compensation for overtime work considered necessary and previously authorized in advance by the Director in writing shall be computed with a multiplier of 1.1 times the overtime rate and number of hours (1.1 x overtime rate x number of hours). Principals shall not receive additional compensation for performance of overtime work. Overtime is defined as work in excess of forty (40) hours per week.
- 3) Labor rates shall be in accordance with the list of employees and rates supplied by the ENGINEER and its Subconsultant(s), and made a part hereof as Exhibit "H" and consistent with prevailing local wage rates paid for similar work to similar employee classifications and subject to approval by the Director prior to starting work.
- 4) The ENGINEER and its Subconsultant(s) shall not invoice the COUNTY for charges for office, rent or overhead expenses of any kind including, but not limited to, insurance, local telephone (including cellular service) and utility charges, office/drafting supplies, depreciation of equipment, professional dues, subscriptions, computer software/hardware, reproduction of drawings and/or specifications, mailing, stenographic, clerical, nor shall it invoice for other employee time or travel and substance not directly related to the work. The multiple factor set forth above shall cover all such costs pertinent to the work.
- 5) All payments to Subconsultant(s) employed hereunder shall be the sole responsibility of the ENGINEER unless otherwise provided for herein or within a written task order authorization. The ENGINEER shall not submit invoices, which include charges for services by Subconsultant(s), unless such services have been performed

satisfactorily and the charges are, in the opinion of the ENGINEER, payable to such Subconsultant(s).

- 6) The ENGINEER shall promptly make all payments to such Subconsultant(s) following receipt by the ENGINEER of corresponding payment from the COUNTY. Prior to any payments to Subconsultant(s), the ENGINEER shall, if requested by the Director, furnish to the COUNTY a copy of the agreement(s) providing for such payments. Compensation rate to Subconsultant(s) authorized by the Director as services shall not exceed the ENGINEER's rates referenced above unless otherwise approved in advance by the Director.
 - 7) The ENGINEER and its Subconsultant(s) shall be compensated at the flat rate of one hundred twenty-five dollars (\$125.00) per hour for the time a Principal(s) is/are engaged directly in the work. This rate shall not be subject to the negotiated multiplier. The Director reserves the right to substitute Principal(s) in its sole discretion upon request by the ENGINEER.
 - 8) Surveying and testing services, if needed and authorized by the Director or the Director's designee, shall be compensated in accordance with the COUNTY's Public Works and Waste Management Department schedule of payment, attached as Exhibit "J".
 - 9) Diving services shall be paid as a direct reimbursable at the rates agreed to herein.
 - 10) Not To Exceed: Under this compensation, the ENGINEER is compensated for the actual time of personnel engaged directly in performing services under this Agreement. A not to exceed cap for the total fee for each assignment given under this compensation basis may be established prior to the issuance of the task order authorization. The compensation method shall be in accordance with the compensation schedule as shown in 8(A)(1) of this Agreement.
- B. Lump Sum Fee: The fee for any requested portion of work may be, at the option of WASD, a lump sum mutually agreed upon by the COUNTY and the ENGINEER. The lump sum fee will be estimated based on direct salaries times the negotiated multiplier times the hours per employee. Designated lump sum fees shall be stated in the written task authorization to proceed. Lump sum fees shall NOT include any reimbursable expenses which must be separately accounted and paid on the basis of original receipts and actual costs
- C. Reimbursable Expenses: The ENGINEER may be compensated on a direct reimbursement basis for certain work related expenditures not covered by

fees for engineering services, provided such expenditures are reasonable and previously authorized by the Director or the Director's designee in writing. Reimbursable expenses typically are not considered the cost of doing day-to-day business and may include:

- 1) Expenses for laboratory tasks and analyses, permitting fees, printing and reproduction costs, rental or purchase of specialized equipment and instruments necessary for the efficient performance of the work, provided that such equipment and instruments become the property of the COUNTY upon work completion.
- 2) Expenses for travel (except commuting), the ENGINEER shall claim no more in expenses for travel, transportation, and subsistence than would be allowed an "authorized person" pursuant to the terms of Section 112.061, Florida Statutes, and the COUNTY's Administrative Orders 6-1 and 6-3, as presently written or hereafter amended. No such expenses shall be approved without the prior written consent of the Director. For the purposes of this section, the principal place of business shall be considered the ENGINEER's local corporate headquarters. Failure to obtain such prior authorization shall be grounds for nonpayment of such expenses. To be compensated, the ENGINEER shall maintain accurate records in a format and procedure provided by WASD, and the ENGINEER shall submit said records with their invoices.
- 3) Reimbursable expenses of the ENGINEER and approved Subconsultants shall be identified on a direct cost basis. Mark ups as a percentage of salary costs are not permissible and will not be reimbursed or paid. The ENGINEER shall be required to submit original receipts of all reimbursable expenses for tasks issued on a time and material basis and lump sum.
- 4) Expenses incurred by the ENGINEER for an office trailer required to perform services at the Project locations. In the event the COUNTY requests the ENGINEER to provide an office trailer, the COUNTY shall reimburse the ENGINEER for expenses associated with the use of the office trailer such as, but not limited to, the lease payments, office furniture and equipment, permitting fees, site preparation fees including installation of utilities, monthly utilities cost, insurance costs and routine maintenance and cleaning costs. Provisions for said office trailer shall be approved and coordinated with the COUNTY.
- 5) Items not listed shall be reviewed on a case-by-case basis and shall require approval in advance by the Director or the Director's designee.

D. Maximum Compensation: The total of all payments to the ENGINEER pursuant to this Agreement shall not exceed five million dollars

(\$5,000,000.00), excluding the contingency allowance set forth below. No minimum amount of compensation is guaranteed to the ENGINEER.

- E. Contingency Allowance Account: In the event that a contingency necessitates the performance of additional services by the ENGINEER after the five million dollars (\$5,000,000.00) maximum compensation limit of the Agreement has been encumbered, the Director shall have the right to authorize performance of additional services provided that compensation for such services does not exceed ten percent (10%) of the Agreement maximum compensation limit or five hundred thousand dollars (\$500,000.00). Before any additional services are begun, a task order authorization from the Director shall be given to the ENGINEER. The ENGINEER shall have no entitlement to any of these funds. The COUNTY retains all rights to these funds, may expend these funds at its sole discretion, and any funds not expended from this Allowance Account remains the property of the COUNTY.

The ENGINEER hereby certifies and agrees that wage rates and other factual unit costs, as submitted in support of the compensation provided in this Section, are accurate, complete and current as of the date of this Agreement. It is further agreed that said compensation shall be adjusted to exclude any significant costs where the COUNTY shall determine that the price of services was increased due to inaccurate, incomplete or unclear wage rates or other factual unit costs. All such compensation adjustments shall be made within one (1) year from the date of final billing or acceptance of the work by the COUNTY, whichever is later. The COUNTY reserves the right to request a certified copy of the ENGINEER's payroll prior to issuing a task order authorization.
- G. County Discretion To Negotiate: Notwithstanding and prevailing over any other provision of Section 8 of this Agreement, the COUNTY reserves the right in its sole discretion, through the Director or the Director's designee, to negotiate fees and rates with ENGINEER, mutually acceptable to COUNTY and ENGINEER, that are less than those set forth herein for particular projects, including but not limited to, a lower multiplier and hourly rates.

In the event partial payment has been made for professional services not performed, the ENGINEER shall return such sums to the COUNTY within ten (10) days after receipt of written notice that said sums are due. Upon such termination, the COUNTY may, without penalty or other obligation to the ENGINEER, elect to employ other persons to perform the same or similar services.
